

Week 11:

Topics: [copy the Week 11 Class Links page & handouts from the server]
siFR [scalable Inman flash replacement] v2
SWifr : Image modifications: border, dropshadow, rotate

Assignment for Week 11

Make final revisions to your design for the 'Horizontal Page' for your final portfolio interface

Portfolio considerations:

Branding, graphic identity: logo or other ID elements
grid/page layout to incorporate a number of different image sizes/shapes
navigation
text paragraph: how do you introduce yourself?
any other items: links, contact info, etc.

optional items

- tabbed menu
- image drop shadow [see Chapter 8, pp 183-195]
- photo/image gallery with rollovers [see <http://www.cssplay.co.uk> photo galleries]

Try out siFR and add at least 1 header using siFR in one of your projects

Try our SWifr on an image on a practice page or on one of your pages

LAST PROJECT: THE REMAPPED PAGE [translating print into screen]

Find a print page that you can translate into a web page and bring it to class next week.

The print page should have the following elements:

- logo/branding
- headline
- one or more subheads
- minimum 4 paragraphs of text
- image [you can replace the photographs or artwork, but your replacement must be compatible with the text & topic of your page]
- a table of contents or other list of items

For live links to web resources,
go to the class web page:

<http://www.annetteweintraub.com/courses/49540/49540.html>

Items checklist

These elements should be somewhere on your pages for the final

- opacity element
- fixed position element
- fixed background element
- rounded corners box
- by the end of the semester: use absolute, relative, fixed and float positioning
- correctly use px, % and ems for font sizing
- horizontal list menu
- image gallery

- siFR element [new week 10]

Optional items:

- tabbed menus
- dropdown menu
- dropshadow

always:

organize your CSS & comment
use CSS resets
for now, keep your CSS in the header

Try out CUFÓN and @font-face
and add at least text block in each technique somewhere in one of your projects

add a siFR element somewhere

Copy your page and .css file
to your name folder on the
server for Week 3 BEFORE
class
